SB SAT @ AMSAT \$L019HELP2

LUSAT-1: News + Telemetry Needed!

On May 19th, from 03:23 to 03:38 UTC, LUSAT-1 command station (operated by
Norberto Pennini, LU8DYF), had tried to start the satellite. This operation
was unsuccessful.

In the next passes, Norberto will restart the software load process.

PLEASE DO NOT USE THE SATELLITE !!!

Please note that the satellite will not be operational for regular users for
the next 7 to 30 days period.

If you have ANY LUSAT-1 (L0-19) telemetry report for the period between
May/17/94 at 02:00 and May/18/94 at 02:00 UTC, please send it to the LUSAT-1
command station, either via packet radio to LU8DYF @ LU8DYF.BA.ARG.SOAM and

LU8DYF @ ANY ACTIVE SATELLITE, or via Internet to: lu8dyf@asarin.org.ar

We want to thanks LU8DYF and some other stations that, in a way or another,
made possible this operation: LU1DBC, LU1FYZ, LU2FHE, LU2BDT, LU6DYD, LU7AKC,
LU7DSU and LU8ENU.
